

Journal #2

23-04-2022: I've successfully created the Iso image and tried to test. The testing works. However, it is not recommended to use QEMU (Quick emulator) as it takes very long to simply testing it.

I would personally use either a USB that is more than 5Gb or A cloud storage of equivalent size.

24-04-2022: I will change the ISO from the default Ubuntu to a Media-style Ubuntu.
